## FISHING TOOLS

### **ROD COUPLING TAP**

This tool, by positively tapping the coupling of rod, is used to take out rods which are broken and left in the bored hole for one reason or another.

### **ROD INSIDE TAP · ROD OUTSIDE TAP**

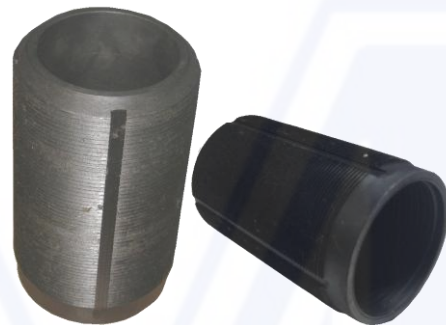

The tool works for the same purpose mentioned above. The tool is positively tapped inside (INSIDE TAP), or outside (OUTSIDE TAP) of the rod.

### **CASING TAP · CORE BARREL TAP**

Casing taps/core barrel taps are used to recover casing tubes/ core barrels which have been left in the bored hole. The tap is screwed into the tube/core barrel and then pulled up. The thread screw is a right screw.
